

SpaceSaver
Clothesline Solutions

About us

Space Saver Clothesline Solutions offers a supreme range of retractable clotheslines which are designed to maximise space while minimising energy costs. Our range features high quality ceiling mounted units easily operated via remote control and manual wall mounted units with a simple, sleek fold out design.

The Space Saver range of clotheslines are designed with creative and innovative technology and are ideal for use in apartments, units, verandas or anywhere where space is a premium. Space Saver Clothesline Solutions also offer a customised service whereby the length of our clotheslines can be reduced to required specifications to suit even the smallest of areas.

Want to save space?

The Space Saver ceiling mounted clotheslines are easy to operate; they lower from the ceiling with a push of a button and can be locked at any position. When loaded with washing, the hanging rails are simply raised to the ceiling which enables use of valuable floor space.

These premium clotheslines also feature an Auto Safety Stop to ensure no damage or injury. This function automatically stops the operation of the clothesline when it hits any obstacles.

Premium 32 Clothesline

Space Saver Premium 32 Clothesline

Space Saver Premium 32 Clothesline

The Space Saver Premium 32 Clothesline's innovative design allows for extension up to 1.2 metres via a hand held wireless remote control. It can be locked at your desired position for the ease of hanging washing then retracted to ceiling height which allows for additional space in your home. This model boasts an additional fold down bar for drying linen items to further maximise its capacity.

Features:

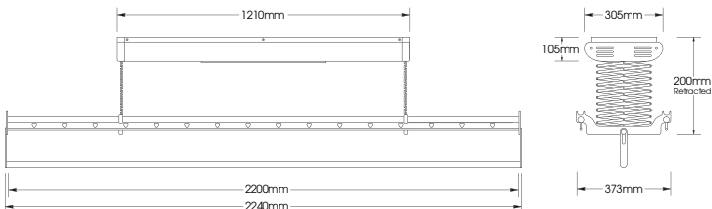

- 2 x 2.2 metre heavy duty aluminium alloy drying rails
 - 32 dedicated hanger notches for clothes hanger placement
 - 1 x 2.2 metre heavy duty aluminium alloy bar
 - Maximum weight capacity of 35kg!
 - Large internal light
 - Hand held wireless remote control – wall mountable holder included
 - Maximum extension to a depth of 1.2 metres*
 - Easily locked at any stage during the extend/retract process
 - Auto Safety Stop
 - Soft and smooth operations
 - Strong, durable and robust materials and components
- *Optional extra available to allow maximum extension to a depth of 1.7 metres.

Installation:

Easy to follow, DIY installation instructions included. For a cordless sleek finish we recommended the clothesline be electrically hardwired.

Specifications:

State	Length	Width	Height
Retracted	2240mm	373mm	200mm
Expanded	2240mm	373mm	1250mm
Expanded with Bar	2240mm	373mm	1450mm

Extra drying bar for maximum capacity

Space Saver 36 Clothesline

Space Saver 36 Clothesline

Space Saver 36 Clothesline

The Space Saver 36 Clothesline features a similar design to the Premium 32 Clothesline. It allows for extension up to 1.2 metres via a hand held wireless remote control and can be locked at your desired position for the ease of hanging washing. The multifunctional two aluminium alloy rail design is 2.4 metres long with 18 dedicated hanger notches on each rail, making this clothesline large enough for the whole family!

Features:

- 2 x 2.4 metre heavy duty aluminium alloy drying rails
- 36 dedicated hanger notches for clothes hanger placement
- Dual internal lights
- Hand held wireless remote control – wall mountable holder included
- Maximum weight capacity of 35kg!
- Maximum extension to a depth of 1.2 metres*
- Easily locked at any stage during the extend/retract process
- Auto Safety Stop
- Strong, durable and robust materials and components
- Soft and smooth operations

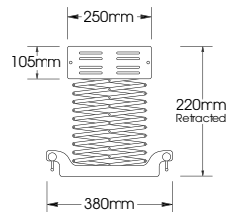

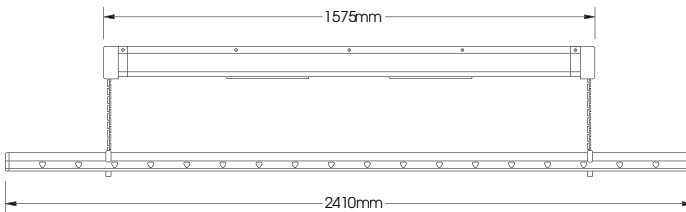

*Optional extra available to allow maximum extension to a depth of 1.7 metres.

Installation:

Easy to follow, DIY installation instructions included. For a cordless sleek finish we recommended the clothesline be electrically hardwired.

Specifications:

State	Length	Width	Height

Space Saver Clip-Close Extendable Hanger

The Extendable Clip-Close hanger is designed with a spring loaded clip at the hook of the clothes hanger which acts to secure the hanger to the aluminium rail. The self-lock clip is durable and will endure wind and any weather conditions. An added design feature includes adjustable blades.

Space Saver Extendable Hanger

The Space Saver Extendable Hanger is designed to hang clothes of all shapes and sizes. The adjustable blade on each end allows the user to change the length of the hanger to fit and fill varied sized clothes. This greatly reduces the chance of clothes slipping off while drying.

Space Saver Easy Peg

The Easy Peg is made from durable plastic and is designed to last. The large opening enables the user to easily attach items to the drying rail or bar and the double metal spring ensures the clothes are tightly secured. The Easy Peg is ideal for use for linen items, underwear etc.

Saving you even more space!
